Benefits of a Full Institutional Adoption of The CORE Technology Suite

Consolidated Site Contracts Across All Programs

Cost Effective Institutional Pricing

Institutional Setup for Shared Sites

Dedicated Client Success Team

Efficient Training and Communication across all Programs

Institutional Reporting Capabilities

COST

We understand that the operational costs of adding new technology can add up quickly. Our implementation team can efficiently work on all programs at one time ensuring a smooth, low cost process.

Additionally, CORE offers cost effective institutional pricing structures to ensure savings from start to finish.

COLLABORATION

We are your partners in this endeavor. Our implementation and client success team will be right by your side through every step in the implementation process.

You can expect to enjoy the responsiveness of a dedicated client success manager who will take the time to have a deep understanding of your institutions needs

CONVENIENCE

By Implementing the CORE Technology Suite across multiple programs you will experience more efficient communication, tracking, and reporting.

Additionally, our client driven development team is always working on new features, requested by clients, to improve the operation experience with our solutions.

"As a large institution with several campuses and multiple programs, we require a software system that is flexible, customizable, and robust. The level of capabilities and features within CORE checks all these boxes and supports our multiple programs efficiently."

Segar Annamalai
Chief Information Officer
American Career College / West Coast University

HIGHER EDUCATION GROUP

Our implementation team has transitioned over 350 programs to CORE software!

1 **PRE-IMPLEMENTATION**
Our implementation team reviews goals, schedules, and project timelines so you know exactly what to expect throughout the transition.

2 **DATA COLLECTION & TRANSITION**
Our team moves all of your existing data into the CORE system and configures your account based on your needs.

3 **ADMINISTRATOR TRAINING**
We provide one-on-one training to your team through personalized training calls and regular check-ins at whatever pace works best for your team.

4 **GO-LIVE!**
We partner with you to ensure a seamless go-live experience for your students, preceptors, administrators and institutional partners.

5 **DAILY SUPPORT CONTINUES AS NEEDED**
Our support continues beyond implementation. Your client success specialist provides personalized daily support as often as needed (and never at an additional cost).

6 **INCREASED SATISFACTION & EFFICIENCY**
Our client satisfaction surveys show programs that have transitioned to CORE experience increased student, admin, and preceptor satisfaction. They also streamline their education process, allowing them to refocus their attention to other important areas!

Another huge plus we've been experiencing with CORE is that they provide one-on-one customer support. Even if there's something in the system we're unable to figure out, we have someone at CORE we can contact to get our questions resolved quickly. There have been instances where I email them and I have an answer in as little as 20 minutes.
