## WHAT OUR CLIENTS ARE SAYING

*Overall CORE is a great system. I appreciate how open the CORE team is to hearing what we need and making changes to the system. The Client Success team is quick to respond to questions. I enjoy how they create videos to help walk us through anything we are struggling with. As someone who oversees multiple programs across the university, CORE has allowed us to have one consistent system across all nursing programs that works for everyone. CORE has helped to streamline and make our processes so much more efficient. We're able to more easily communicate and we're taking a lot of the duplication out of our day to day processes.*

**Dr. Tricia Berry**

Former PhD Associate Dean of Clinical and Practicum Programs  
Purdue University Global School of Nursing

*Our clinical placement process has greatly improved with CORE's SmartMatch tool. It used to be challenging to do it objectively and fairly while also trying to take student preferences into account. With CORE, students are really happy to have some say in their placements while we as administrators are still able to maintain fairness and objectivity." Since utilizing CORE, managing our varying clinical site requirements has also become easier, more streamlined, and more organized for us. Another huge plus we've been experiencing with CORE is that they provide one-on-one customer support. Even if there's something in the system we're unable to figure out, we have someone at CORE we can contact to get our questions resolved quickly. There have been instances where I have an answer in as little as 20 minutes.*
